

REMARKS

Examiner's remarks have been carefully considered.

Applicant has amended the specification as suggested by the Examiner. Applicant has also amended the claims as suggested by the Examiner. Applicant submits that, as amended, the specification and the claims are no longer indefinite. Since the claims were not rejected on any prior art and are now not indefinite, applicant submits that the claims are now allowable.

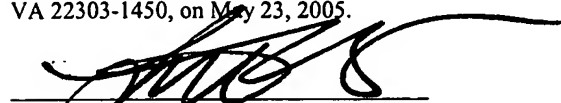

While the applicant does not agree that there was any double patenting situation in this application, in order to expedite the prosecution of this application, applicant is submitting herewith a Terminal Disclaimer disclaiming the terminal part in any patent that issues on this application which would extend beyond the expiration date of patent application Serial No. 10/437,089, filed May 13, 2003. The filing of this terminal disclaimer avoids the provisional rejection of the claims on double patenting. Hence, applicant submits that the claims are now allowable.

The terminal disclaimer fee of \$130.00 is attached hereto. If this is not sufficient please charge any additional fee or credit any overpayment to Deposit Account No. 03-2468.

Since all issues have now been resolved, allowance of the application is respectfully requested.

Dated: May 23, 2005

I hereby certify that this paper or fee is being deposited with the United States Postal Service as First Class Mail in an envelope addressed to: Commissioner of Patents and Trademarks, Alexandria, VA 22303-1450, on May 23, 2005.
